## Principal Message By Jian Wang

Serving as the principal of the Great Wall Chinese School (GWCS) for the year of 2005 - 2006 was one of the few commitments that I have been proud of. I really appreciate the GWCS for giving me the opportunity to serve the school. Without doing this, I would never find out how competent of our admin staff team, how supportive of our parents, how capable of our teachers, and how excellent of our students. During the last school year, the GWCS has achieved greatly in many respects.

The GWCS has been known for its strong growth and academic excellence. It has now over 150 students with 11 Chinese language classes and 6 enrichment and cultural classes. Academic focusing has been the unique drive force underneath our excellence. The top quality of our teacher team has assured the essences of our education. Of 14 experienced teachers, eight of them have BS degrees, five have Masters and one has Ph.D. On the other hand, the efficient and effective school management also plays an important role. In each quarter, with the supports of our management team, teachers had teaching preparation meeting, distributed class lesson plans to the families, handed out homework assignment and parent signature sheets, recorded student performance progresses, and held parent conference.

Thanks to our academic focus, our students have achieved tremendously both inside and outside of classrooms. Seven of our students received the awards from Wu Han International Chinese Essay Competition of 2005. This year, 15 more essays have been submitted for the competition of 2006. In addition, the art works of 10 students from our art class have been sent to National Art Contest of Chinese Schools. Furthermore, we have extended education from classroom to society, the "bigger classroom". Our students have actively involved in community services. You could see our students in Craig hospital, Asian Senior Birthday Celebration, Annual Dragon Boat Festival, CCAI Christmas Celebration, etc.

While having their children educated in the GWCS, our parents also benefited from diverse educational seminars and activities here. Our regularly-held seminars covered from cooking, college preparation, mid-age woman health, to real estate, etc. While moms were merrily enjoying their 1<sup>st</sup> International Woman Celebration Party, our dad's basketball team proudly celebrated the 3<sup>rd</sup> place in the 2006 Spring League of CCCSA. It is worthwhile to mention that our 1<sup>st</sup> Family Camp-Out Event will have 26 families with more than 90 participants.

As expected, all the achievements that the GWCS has accomplished so far are indebted to the many unsung heroes behind. I am deeply grateful for the support from parents, the dedication from admin volunteers, and the diligence from teachers and assistants. The GWCS is young but full of vigor and future. I believe that it will become even better and stronger in all respects under the leadership of new management team. Let us work together to maintain the GWCS as one of the best Chinese school in the metro Denver area.

**2006-2007 School Administration Staff**

**Principal:** 刘后茂 Liu, Hou Mao  
**Vice Principal:** 喻志坚 Yu, Zhi Jian
