

Principal Message by Hui (Shaina) Yan

As the 2012-2013 school year comes to a close, we can look back on a great year and appreciate the many success that we have had this year. Progress is present everywhere we look. Students from the preschool level to the high school and adult levels have made great achievements academically and culturally through their participation in our weekly Sunday Chinese school and various community events. This year we offered total twenty language classes and seven culture classes; we have five high school graduates and four students take AP Chinese exam. The community events include the Chinese New Year celebration which is the biggest showcase in Highlands Ranch, the Dragon Boat Festival, performances at Colorado History Museum, and Nursing Home visits. We are proud of such a wonderful student body and want to recognize all our students for their excellent work.

Our teachers at GWCA are truly amazing. They are all supportive, trustworthy, helpful, patient and kind. The teachers have worked hard this year to remain true to GWCA mission and philosophy. This is not a small feat. GWCA offers Chinese language immersion classes, bilingual classes, AP Chinese class, adult language classes, and a variety of culture classes, which meet the needs of most of our students. We thank all the teachers for their tireless efforts.

Parents continue to be great contributors to GWCA. We have had wonderful parent participation this year. From supportive front-desk admin staff and friendly parents on duty to efficient food sale and event helpers, they all work together to make sure the school is in order and run the school like a well-oiled machine. We truly appreciate the kindness and strong support of our parents.

Our work provides guidance and support for children and community members who want to learn Chinese language and culture. “讲华语，开辟新天地” (Speak Chinese, Explore a new horizon!)

Looking forward to another great year ahead!
